

GENTRIFICATION WITH JUSTICE

Town Hall Meeting sponsored by the Fruit Belt/McCarley Gardens Housing Task Force

Speakers: John Washington of PUSH Buffalo, former Councilman George K. Arthur, and Legislator Betty Jean Grant

When: Tuesday May 12, 2015 5:30 – 7:30 P.M.

Where: Moot Senior Center, 292 High Street, Buffalo 14204

What: Predatory developers purchasing houses for rock bottom prices; Real Estate speculators flipping homes; Housing Inspectors, are they being fair to resident owners or intimidating resident owners with scare tactics? Your neighborhood is hyped as up and coming— it is touted as the place to be while the people already living there are disrespected; Fear of not being able to afford your home—either as an owner or as a renter; Power elites saying what they will do to your neighborhood without even considering your needs, your feelings, your history ... but does it have to be this way? Is there a way to have neighborhood change that is based in respect, listening, cooperation, collaboration, fairness? Can there be gentrification with justice?

Come and hear activists, neighbors, and planners provide you with a framework of intentional effort to have **GENTRIFICATION WITH JUSTICE**
